### ***Foreign Documents***

Applicant should supply a copy of Taiwan 201810 cited in the background of the invention since it is not readily available to the examiner.

### ***Drawings***

Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: It appears from the nature of the case and the claim language e.g. "an improved yarn cylinder..." that applicant intends to use a *Jepson* claim format as per 37 CFR 1.75(e). If so, a phrase such as "wherein the improvement comprises" should replace the phrase "the features are:" Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The re citation “such that when the yarn is wound around it, this ensures the prevention...” is a confusing narrative statement. The term “two lateral walls” is indefinite as it lacks clear antecedent basis. The term “the contrastive skewing” is indefinite as it lacks clear antecedent basis.

***Allowable Subject Matter***

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
